Thematic encyclopedia designed for learning through play. It contains 32 double-sided infographic cards, presented as loose-leaf pages within the volume, ideal for interactive use. Its categorized information facilitates understanding through reading, comparison, and deduction. In this collection, you will learn all about great mammals: their characteristics, origin, habits, social capabilities, and the importance of their conservation. On each card, you will find: where they live, what they eat, fun facts, scales, and categorized characteristics so you can compare them and play with them. Have fun with three interactive dynamics to share with family and friends. Challenge them and become an expert! Get them now in their new Luminias Clap! presentation, with a magnetic closure case. Included species: Moose, Oryx, Antelope, American Bison, African Buffalo, Bactrian Camel, Zebra, Chimpanzee, Dromedary, African Elephant, Asian Elephant, Thomson's Gazelle, Gorilla, Cheetah, Spotted Hyena, Hippopotamus, Wild Boar, Jaguar, Giraffe, African Lion, African Leopard, Wolf, Mandrill, Wildebeest, Orangutan, Brown Bear, Polar Bear, Panda, Puma, White Rhinoceros, Tapir, Bengal Tiger, Human.
